PREFACE

Crime in Illinois 1985 is the fourteenth annual compilation of state crime statistics published by the Department of State Police. Readers will notice two significant changes from last year's edition.

Statistics from the City of Chicago are now recorded with the rest of the state's data since the problems that led to their previous omission have been resolved.

The category of rape has been changed to criminal sexual assault. Since July of 1984, sex crimes committed in Illinois have been governed by P.A. 83-1067, the "Illinois Criminal Sexual Assault Act." This law created new offense codes which were implemented January 1, 1985. Because the new law encompasses more offenses than the category of rape, comparisons between the two are impossible. Thus, we cannot record the percentage of change, increase or decrease between 1984 and 1985. Comparison figures will be presented in the next publication of *Crime in Illinois*.

This publication is one of the products of the Uniform Crime Reporting Program, which entails the submission of data by law enforcement agencies throughout the state. When correlated and analyzed, the statistics constitute a useful body of knowledge that can significantly contribute to management and planning activities at local, state, and federal levels.

Since its inception, the quality and scope of the Uniform Crime Reporting Program have increased, thanks to the dedication and cooperation of each participating agency. I am confident the trend will continue.

With gratitude to all who have contributed to its publication, I present *Crime in Illinois 1985* to the people of Illinois.

INTRODUCTION

INTRODUCTION

THE ILLINOIS UNIFORM CRIME REPORTING PROGRAM

The Illinois Uniform Crime Reporting (I-UCR) Program was developed in 1971 and implemented on January 1, 1972. The I-UCR Program has evolved into a system intended to meet the needs of all reporting agencies. It is an incident-based reporting system designed to accomplish the following major goals:

- To provide needed administrative statistics for law enforcement agencies.
- To provide the legislature with information necessary to formulate effective laws which address the crime problem.
- To provide Illinois citizens with the most complete information on the nature and extent of crime.
- To include comprehensive data for researchers and planners.
- To adhere to the national program's standards.

Reporting crime statistics is mandated by chapter 38, section 206-8 of the *Illinois Revised Statutes*:

206-8. Crime Statistics. 8. The Department (of State Police) shall be a central repository and custodian of crime statistics for the state and it shall have all power incident thereto to carry out the purposes of this Act, including the power to demand and receive cooperation in the submission of crime statistics from all units of government.

Reporting agencies receive monthly and quarterly summaries of the reported criminal activity within their jurisdictions upon request. All offenses known to law enforcement agencies are reported monthly to the Crime Studies Section of the Bureau of Identification. Participating jurisdictions include villages, municipalities, counties, colleges, universities, park districts, railroads, and hospitals throughout Illinois. Agencies may also submit service code and local ordinance data in order to provide law enforcement administrators with information for use in planning and research, determining and utilizing manpower, budgeting, and developing and evaluating crime prevention programs.

In 1985, there were 1,001 law enforcement agencies in Illinois, 741 of which reported crime statistics directly to the Bureau of Identification. The remaining agencies reported their crime statistics through an intermediary agency (sheriff's office, police department, etc.). Agencies submit their data through the use of source documents, printouts, magnetic tape, or via remote on-line terminals.

CONSIDERATIONS FOR INTERPRETATION

When comparing the crime statistics of one agency with another, many factors should be taken into consideration before conclusions are made. Some of the conditions affecting the type and volume of crime are:

- Density and size of the community population and the metropolitan area of which it is a part.
- Composition of the population with reference particularly to age, sex, and race.
- Economic status and mores of the population.
- Stability of population, including commuters, seasonal workers, and other transient types.
- Climate, including seasonal weather conditions.
- Educational, recreational, and religious characteristics.
- Effective strength of the police force.
- Standards of appointments to the local police force.
- Policies of local officials.
- Attitudes and policies of the courts and corrections.
- Attitudes of the public toward law enforcement problems.
- Administrative and investigative efficiency of law enforcement, including the degree of adherence of crime reporting and standards.
- Organization and cooperation of adjoining and overlapping police jurisdictions.¹

THE REPORTING OF RAPE AND ILLINOIS CRIMINAL SEXUAL ASSAULT ACT OFFENSES

Effective July 1, 1984, sex crimes committed in Illinois were governed by a new statute entitled "Illinois Criminal Sexual Assault Act" (P.A. 83-1067). This statute repealed eight existing laws in Illinois including rape.

The criminal sexual assault/rape statistics presented in *Crime in Illinois 1985* reflect offenses and arrests reported as rape during January - June 1984, and offenses and arrests reported as criminal sexual assault during July - December 1984 and January - December 1985.

Law enforcement agencies reported July - December 1984 criminal sexual assault offenses to the I-UCR Program using the following conversion table. New offense codes and classifications for 1985 were implemented on January 1, 1985, and are reflected in this publication.

Aggravated criminal sexual assault offenses committed with any other dangerous weapon or with any of the following aggravating circumstances present were reported under I-UCR Offense Code 0213. Likewise, attempted aggravated criminal sexual assault offenses with any other dangerous weapon or with any of the following aggravating circumstances present were reported under I-UCR Offense Code 022D.

Examples of aggravated criminal sexual assault offenses:

- 1) accused committed another felony
- 2) victim 60 years of age or older

ILLINOIS UNIFORM CRIME REPORTING DATA FLOW CHART

THE CRIME INDEX

The Crime Index is the total number of index offenses occurring within a given jurisdiction during a specified period of time. It is used to indicate the amount and extent of serious crimes as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports. The Crime Index consists of violent crimes — murder and voluntary manslaughter; forcible rape; robbery; and aggravated assault, aggravated battery, and attempted murder, and of property crimes — burglary, theft, motor vehicle theft, and arson.

The index crimes used by the I-UCR Program translate into the national program's eight Crime Index offenses as:

Violent Crimes

Murder and voluntary manslaughter — The willful killing of a person or the death of a person caused by gross negligence of an individual other than the victim.

Forcible rape — The carnal knowledge of a female, forcibly and against her will; includes attempted rape. Illinois reports criminal sexual assault offenses rather than rape offenses under this category.

Robbery — The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence; includes attempted robbery.

Aggravated assault — The intentional causing of serious bodily harm or the intentional attempt or threat of serious bodily injury or death; includes aggravated battery and attempted murder.

Property Crimes

Burglary — The unlawful entry of a structure to commit a felony or theft; includes attempted burglary.

Theft — The unlawful taking or stealing of property or articles without the use of force, violence, or fraud; includes burglary from motor vehicle and attempts.

Motor vehicle theft — The unlawful taking or stealing of a motor vehicle; includes attempted motor vehicle theft.

Arson — The willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, public building or any building, motor vehicle, aircraft, or personal property of another.

THE CRIME RATE

The crime rate indicates the volume of crime occurring within a given population. It is defined as the total number of index crimes per 100,000 inhabitants and is calculated as follows:

$$\frac{\text{Crime Index} \times 100,000}{\text{jurisdictional population}} = \text{crime rate}$$

The jurisdictional population can be that of a city, town, village, state, or nation.

* 1983 and January — June 1984 statistics reflect offenses reported as forcible rape.

All totals shown for each category of offense and arrest information reflect data reported by sheriffs' offices, police departments, colleges, universities, and the Secretary of State's Office on offenses that occurred between January 1, 1985, and December 31, 1985. Because of agency adjustments and late submissions, 1984 figures reflected in this publication are not comparable with those figures published in *Crime in Illinois 1984*.

Chicago Police Department statistics are included in the state totals presented in *Crime in Illinois 1985*. In *Crime in Illinois' 1982, 1983 and 1984*, Chicago Police Department statistics were published in a separate section and not included in state totals.

MURDER AND VOLUNTARY MANSLAUGHTER

The index offenses of murder and voluntary manslaughter are merged in accordance with the national program definition and are based solely on police investigation.

Murder

38 § 9-1.

- (a) *A person who kills an individual without lawful justification commits murder if, in performing the acts which cause the death:*
 - (1) *He either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or*
 - (2) *He knows that such acts create a strong probability of death or great bodily harm to that individual or another; or*
 - (3) *He is attempting or committing a forcible felony other than voluntary manslaughter.*

Voluntary manslaughter

38 § 9-2.

- (a) *A person who kills an individual without lawful justification commits voluntary manslaughter if at the time of the killing he is acting under a sudden and intense passion resulting from serious provocation by:*
 - (1) *The individual killed; or*
 - (2) *Another whom the offender endeavors to kill, but he negligently or accidentally causes the death of the individual killed.*

Serious provocation is conduct sufficient to excite an intense passion in a reasonable person.
- (b) *A person who intentionally or knowingly kills an individual commits voluntary manslaughter if at the time of killing he believes the circumstances to be such that, if they existed, would justify or exonerate the killing under the principles stated in chapter 38, article 7, Illinois Revised Statutes, but his belief is unreasonable.*

DATA**

CRIME INDEX/CRIME RATE DATA

Caution should be exercised when reviewing and using these data. The many social factors related to crime and a community's residential population — used to calculate the crime rate — must be considered when making statistical comparisons. A community may have a small residential population but a large moving population because of a substantial number of manufacturers, motels, etc., within its jurisdiction. The large moving population attracts criminal behavior that occurs within the small jurisdiction and must be reported by the law enforcement agency. The crime rate calculation does not compensate for a moving population. The statistics can make it appear that crimes are committed by community residents when this is not necessarily true.

STANDARD METROPOLITAN STATISTICAL AREAS

A Standard Metropolitan Statistical Area (SMSA) includes a city of more than 50,000 and the county in which the city is located, plus other cities which exhibit strong ties with the city. The county sheriff's office is also included for crime reporting purposes. * Two of the SMSAs overlap with Iowa and Missouri. Areas outside of Illinois that are included in an SMSA are not represented in the statistics presented here.

SMSA Summary

The estimated population of core cities and suburban areas — the two regions that comprise the SMSAs — accounts for 81.0 percent of the state population. The total SMSA index crimes account for 91.7 percent of the Illinois Crime Index.

SMSA Core Summary

A core city is within an SMSA and has a population of 50,000 or more inhabitants. The "twin central cities" of certain SMSAs have combined populations of 50,000 or more inhabitants and are considered together as a core city.*

The inhabitants of core cities represent 40.5 percent of the state's population and 50.0 percent of the SMSAs' population. Core cities account for 63.1 percent of the Illinois index crimes and 68.7 percent of the total SMSA index crimes.

LAW ENFORCEMENT OFFICERS KILLED

During 1985, three Illinois law enforcement officers were killed by felonious acts. A brief narrative on the circumstances surrounding each felonious death is presented below:

July

Chicago - On July 12, 1985, at approximately 4:10 p.m., two police officers with the Chicago Police Department responded to a call that a male wanted for both impersonating a police officer and posing as a city building inspector in an alleged shakedown scam had just left a local business. When the suspect observed the police officers, he fled on foot and was pursued by one of the officers. While apprehending the 37-year-old subject, a struggle ensued and the 22-year veteran officer was shot three times with his .38-caliber service revolver. The 53-year-old officer sustained fatal wounds to the chest and abdomen and died a short time later. The assailant, apprehended near the scene of the shooting by other officers, has been charged with murder.

October

Cook County - A 29-year-old officer with the Cook County Sheriff's Office stopped a vehicle without license plates at approximately 9:30 a.m. on October 17, 1985. After calling for backup, the 5-year veteran directed three suspects out of the vehicle. The officer noticed a .38-caliber weapon on one suspect and attempted to disarm him when the assailant fired one shot striking the victim in the forehead killing him instantly. Responding officers broadcasted a description of the vehicle and the perpetrators, ages 27, 23 and 22, were apprehended. One suspect has been charged with murder.

November

Wheeling - A 41-year-old officer with the Wheeling Police Department responded to a possible unlawful entry at a private residence at approximately 7:30 p.m. on November 5, 1985. The 15-year veteran immediately requested a backup unit since he held two suspects in custody. The suspects shot and killed the victim with a .38-caliber handgun and engaged the backup officer in a gun battle before fleeing the scene in a vehicle with three hostages. The suspects were apprehended and charged with murder, three counts of aggravated kidnapping, and attempted murder.

LAW ENFORCEMENT EMPLOYMENT INFORMATION

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{number of employees} \times 1,000}{\text{jurisdictional population}} = \text{employment rate}$$

Example:

A department with 60 employees in a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants.

$$\frac{60 \times 1,000}{51,000} = 1.2 \text{ per } 1,000 \text{ inhabitants}$$

Law enforcement employment rates should not be correlated with index crimes; non-index offenses and the many services performed by the typical law enforcement officer amount to over 80 percent of the officer's workload, the details of which usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

The 25,042 part- and full-time sworn officers in 1985 account for 83.9 percent of the police department work force. The 1985 employment rate for sworn employees of police departments is 2.7 per 1,000 inhabitants. The 4,810 civilian employees comprise 16.1 percent of the police department work force, with an employment rate of .5 per 1,000 inhabitants.

The 3,097 part- and full-time sworn officers in 1985 account for 70.7 percent of the sheriffs' offices work force. The 1985 employment rate for sworn employees of sheriffs' office is 1.4 per 1,000 inhabitants. The 1,284 civilian employees comprise 29.3 percent of the sheriffs' offices work force, with an employment rate of .6 per 1,000 inhabitants.
